The following is an examiner's statement of reasons for allowance:

As per claims 14-15, 18-23, 35-54: the claims are directed to message notification in a mobile communication system. The prior art of record does not teach or fairly suggest a calling party, using a mobile terminal, associates and stores a notification message to a data object and a receiving party, wherein when the calling party activates the data object, the notification message is activated and transmitted to the associated receiving party to let him/her know that the associated object data has been activated by the calling party/terminal and the calling party is on line/waiting/activated, as recited in claims 35-38 and 47, and further argued by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
